DEAR SIR-Allow me, in behalf of the citizens of Forrest City, to return our heart-felt thanks for the kindnesses extended us by the Howard association of Memphis. Especially do we congratulate ourselves upon the kind and efficient nurses sent us to care for our sick and suffering people. I believe, without exception, the nurses have been kind and attentive toward the sick. Had it not been for their noble services toward our sick, they would have suffered untold tortures. The fever has almost subsided, and the remaining cases all convalescing. With many well wishes for yourself and the continued success of the Howard association of Memphis, I remain yours truly,

> PANAMA. October 25 .- The Star and Herald has the story of the naval battle between the Peruvian iron clad Huascar and a divi-sion of the Chi.ian first. Steaming rapidly along the coast, the Huascar, at about halfpast three o'clock, on the cighth of October, signaled to her consort, the Union, that the enemy was in sight, and immediately proceed at full speed to the northward, hoping elude their vigilance in the darkness and rusting to the superior rapidity of the Union to mislead the opposing squadron. The Union rather invited the enemy's attention, in hopes that the Huascar might get far enough ahead before daybreak to escape. The Chilian vessels were one iron-clad and three wooden steamers. At seven o'clock on the norning of the eighth, the Chilians were stil in pursuit, about six thousand metres from the Union, and the Huascar ahead, but when the log lifted there appeared, directly in front, the remaining division of the enemy's

fleet, an iron-armored frigate and three corvettes or transports. The Peruvian- wished to avoid a conflict with the Cailian fleet, and to no purpose. The Huascar, at half-past nine o'clock, found herself in front of Marre of Mejillones, and the second iron-clad within cannon shot, while the first was coming rapidly up, running in toward the shore in the very bay of Mejillones de Bolivia. The Hu-ascar awaited the advance of her nearest antagonist and let drive her two turrat guns, following up the discharge by an attempt at ramming, which proved unsuccessful owing to the power possessed by the Chilians to turn in their own length with their twin screws. The fire was instantly returned and the mitrailleuses in the tops of the Huascar

and the enemy's commenced their dreadful rattle. The Union, to save herself from capture or destruction, continued her flight, and the Huascar, unaided, continued the fight. She placed herself between the enemy's vessels, but the Chilians took every opportunity of getting in shots at the stern of the ram, her vulnerable point, and the Huascar was taken frequently at a disadvantage. She several times repeated her attempt to ram, but unsucce sfully. After two hours combat the Huascar, with her hull riddled, engines damaged, turret so jammed it would not revolve, and with only the officers unwounded, hauled down the Peruvian flag and surrendered. The Chilian iron-clad first into action fired her broadsides very rapidly, as with her twin screws she was able to present to her adverary in a few minutes any battery she wished used. The Huascar's guns were well served, and in an hour d scharged twenty-five shots. Her gunners

were foreigners, principally English and Scotch, among whom the mortality must have been considerable. Her engineers were all foreigners, twenty-five of the crew in all being Europeans. The damage done to the Chilian iron clads is considerable. The Almirante Cochran, which sustained the brunt of the battle, was somewhat damaged, but the Blance Encaleda escaped almost entirely. The unequal character of the fight may be anderstood when it is known that the Huasoppose twelve, and her armor was four and one-half inches as against nine. Subscrip-tions have been opened in Lima for the pur-chase of an iron-clad, to be called "The Alnirante Grau." Men give their money, heir houses, their estates, their watches and even their sleeve links; women have thrown nto the fund their diamonds and silver plate. One lady sent diamond jewelry valued at two thousand pounds sterling. O hers have been equally liberal. The archbishop of Lama heads the subscription with two thousand sols. Already nearly two hundred

housand sols have been collected. The ministry, in order to give the president an oppor-tunity to choose new advisors, resigned en masse, but their resignnation was not accept-el. In spite of a feeling of sadness at the loss of Admiral Grau and his ship, the Huascar, there is no thought of submission. A com-mission, composed of Dr. Rosas, president of the Peruvian senate, and Senor Camacho, editor of the Opinian Racional, of Lima, sailed for Europe from Aspinwali on the twenty-second instant, to endeavor to purchase another iron-clad to replace the destroyed Hu-ascar. It is hinted that the Spanish governcar carried forty men, officers, sailors, ma-

ment may assist them. The battle is called the "Trafalgar of the Pacific." The Huasrines and engineers. Her plating amidships was four and a half inches, tapering off to two and a half inches in the bow and stern, and her measurement about twelve hundred tons, with Armstrong rifles (three hundred pounders) in the turret, and two forty-pounders on deck, which probably could not be used from the hight of the Chilian vessels and the extreme short range, sometimes three undred meters and sometimes a stone's

Three thousand Peruvian reinforcements have arrived at Arcia. Reinforcements are also going to Iquique.

The Chilians are also reinforcing, and the armies are nearing each other, and battle is Commander Grau, of the Huazar, and both of his lieutenants were killed in the engage-ment with the Chihan fleet. Many of the crew were killed and wounded. At the close

of the action the Huascar nearly sank. It was hought doubtful whether she could have reached port.

The Chilian army, numbering eighteen thousand, is reported to be marching upon

Iquique, Peru.

Mrs. Grau is reported as dying soon after being informed of her husband's death.

The terrible Indian, Calisto Vasquez, at five o'clock in the evening of the seventeenth of September, was taken from his prison and in the plaza of La Paz, Honduras, the theater of his last exploits, was shot to death. He gave the names of a number of politicians, priests, revolutionary generals, landed pro-prietors and others who aided him. We shall at once proceed to examine our affairs, with a view of arriving at our true condi-tion, and will submit the result." Mr. David Stellaur, who is the only partner visible to day, refuses to make a general statement as to the causes, liabilities and assets, but states that he has little doubt that the firm will continue business after a time. Rumor puts the amount at a million, but that is only conjecture. The firm has been considered one of the strongest and most reliable in the west, and it is difficult to give any reason for the failure. From the fact that this afternoon there was a considerable break in wheat, it was alleged that the firm had been speculating in wheat, but diligent inquiry among the brokers failed to verify the assertion. I sought many remedies here and elsewhere, also use of sulphur baths, without permanent cure.

Last May a physician called my disease Eczema Bodent—spots appeared on my hands, head, and face, eyes became much inflamed and granulated, causing at length impaired sight.

Internal and external remedies were prescribed by a leading physician for six months, was then introduced to another, and a consultation of several leading physicians was had, when a definite plan was decided upon, but all to no purpose.

After following advice for four months without any permanent cure. I bought two bottles of Culicura Resolvent, two boxes of Culicura, and some Soap, and can testify with great pleasure to the effect they have had in my case, in eight days being nearly cured. ace, eyes became much inflamed and granulate cured.

The physicians pronounced my case the most aggravated one that has ever come under their experience and practice.

I recommend and highly indorse the Culicura Remalies. Yours truly.

SALT RHEUM. On Face, Head and Parts of Body. Head Covered with Scabs and Sores. messrs weres a furrer. a commenced to use four culticural last July. Have only used one large and one small box, and one bottle of the RESOLVENT. M face and head and some parts of my body were almost raw. My head was covered with scabs and sores, and my suffering was fearful.

I had tried everything I had heard of in the East and West. My case was constepred a very bad one. One very skillful physician said he would rather not treat it, and some of them think now I am only oured temporarily. I think not, for I have not a particle of Salt Bheum about me, and my case is considered wonderful My case has been the means of selling a great many of your CUTICULA REMEDIES in this part of the country. Respectfully yours.
